Grimsholm®

Chainsaw chain & bar fit guide

For all major chainsaw brands

Grimsholm offer high-performance chainsaw chains for professionals and enthusiasts.
This guide will help you find the right Grimsholm® chain for your work.
For more information please visit ► grimsholm.com

Chainsaw chain & bar fit guide v1.8

Precision, sharpness, and durability – straight out of the box

Grimsholm saw chains combine Swedish engineering, German steel, and high-precision grinding for optimal cutting performance and long-lasting reliability. Thanks to a unique pre-stretching process, the need for manual adjustments is minimized, allowing you to work efficiently from the very first cut.

Find the right Grimsholm chain for your chainsaw in each brand's compatibility matrix.

For more information please visit ▶ grimsholm.com

INFORMATION

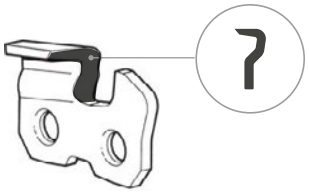
Grimsholm Saw chains

Grimsholm saw chains are the result of Swedish engineering, high-quality German steel, precise HQ grinding, and a specialized stretching process. This combination ensures that each chain is sharp and ready for use straight out of the package.

The chains are available in both semi-chisel and full-chisel variants, meeting the needs of professionals and enthusiasts alike.

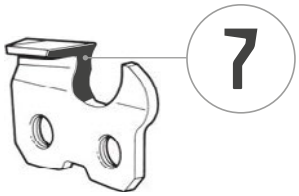
PREMIUM CUT

Semi-chisel saw chains have rounded corner teeth, which help lower the risk of kickback compared to full-chisel chains.



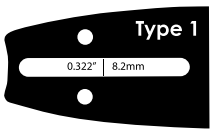
PREMIUM CUT **PRO**

Full-chisel saw chains feature square-cornered teeth for more aggressive cutting. However, they carry a higher risk of kickback.



Grimsholm Guide bars

To match the Grimsholm Saw chains we recommend Grimsholm Guide bars that are produced with the same stringent quality control as our saw chains. Utilising advanced heat treatment processes, we achieve a durable product with a highly flexible body. Our guide bars are designed to fit and replace products from leading industry brands – see compatibility details in the table below.



GRIMSHOLM TYPE 1
Husqvarna K041
Oregon K041 & Oregon A041
Carlton 10 & Carlton 10W

INFORMATION

Color-coded – for every chain

Grimsholm saw chain files are designed to deliver optimum cutting performance with their double-cut teeth, while ensuring a smooth and efficient sharpening experience. Engineered with durability in mind, each file is precisely hardened to retain its sharpness over time, helping you achieve consistently sharp chains – whether you are a professional user or a dedicated homeowner.

For easy size identification, all round files are color-coded by dimension, allowing you to quickly select the right file for the job.

Flat files are available in packs of 1 and 12, while round files are available in packs of 3 and 12.

Grimsholm® is a registered trademark within EU, China, and other applicable countries. Products wearing the Grimsholm® brand are often accessories compatible with machinery of other brands. Compatibility is communicated with the best of intentions to respect each trademark owner. All Grimsholm® labelled products are produced by Grimsholm Products AB and its partners without any cooperation with the trademark owner of the machine the accessory is compatible with. As a distributor or retailer of Grimsholm you are expected to respect the rights of each trademark owner and only use the Grimsholm® trademark as well as other trademarks mentioned in accordance with all applicable laws and regulations.
